HERO REGISTRY: Uniting our healthcare community to protect the health and well-being of America’s frontline workers

Use these instructions to create your HERO Registry account.

CREATING A HERO REGISTRY ACCOUNT

- You can use your work email, gmail or another personal email account
- The HERO registry is hosted on a secure, google cloud account
- If you use your work email or another personal email account, you will need to create a google account with a 2-step authentication initially.
- If you use your gmail account, it will use that authentication for registration

1. Click Join the Registry on the landing page heroesresearch.org
   - JOIN THE REGISTRY

2. Confirm you are a healthcare worker in the US
   - The Healthcare Worker Exposure Response and Outcomes (HERO) Registry is for you, if you:
     - Are a healthcare worker in the US
     - Work in a US setting where individuals receive healthcare
     - May include workers who provide direct patient care such as doctors, nurses, and therapists
     - Include workers who do not provide direct patient care, but provide other services such as housekeeping, food service, maintenance, etc.
     - Are 18 years old or older
   - I confirm

3. Set-up a HERO Registry Account
   - 3 choices:
     1. Use existing Google account with pre-existing Gmail
     2. Create a new Google w/Gmail
     3. Use another email as your login

   #3 Create a NEW account
   - Enter your name
   - Enter your work or personal email address
   - Create a password
   - Confirm a password
   - NEXT you will have a 2-step authentication that will create a HERO Registry account hosted on Google
